

Competitors may call it overkill, you'll call it perfect.

INTRODUCING THE NEW SUPER BRAIN 989 AC/DC CHARGER

Charge and discharge
1-8 cell lithium and 1-25
cell NiCd/NiMh at up to
a blistering 10 amps*.
Handles lead acid and
gel cell as well. Also
functions as a 1-30 volt
digital power supply.

Includes a separate,
heavy duty 10 amp
AC power supply.

*Super Brain Chargers
Feature Patented
Technology. Additional
patents applied for.*

Delivers sophisticated
charging technology
with a user-friendly,
intuitive interface. No
complex flow charts, no
convoluted programming.
It's easy to use.

Fast, versatile and easy to use, the Super Brain 989 does it all for the RC boater

Whether you race competitively or you're a recreational power boater, compare your charger, or any charger, to MRC's new Super Brain 989. Here's an "all-in-one" charger that handles lithium batteries with ease, and fast charges your high voltage, high capacity multi-cells without forcing you to jury-rig your packs. This versatile charger conveniently stores 24 battery

profiles and offers battery temperature sensing and control capabilities. The Super Brain 989's high capacity, fast charge ability will keep you running in the water, not waiting on the shore. It's the cutting-edge charger no boater should be without.
