

Competitors may call it overkill, you'll call it perfect.

INTRODUCING THE NEW SUPER BRAIN 989 AC/DC CHARGER

Charge and discharge
1-8 cell lithium and 1-25
cell NiCd/NiMh at up to
a blistering 10 amps*.
Handles lead acid and
gel cell as well. Also
functions as a 1-30 volt
digital power supply.

Includes a separate,
heavy duty 10 amp
AC power supply.

*Super Brain Chargers
Feature Patented
Technology. Additional
patents applied for.*

Delivers sophisticated
charging technology
with a user-friendly,
intuitive interface. No
complex flow charts, no
convoluted programming.
It's easy to use.

Versatile and powerful, the Super Brain 989 does it all for the driver

Whether you race competitively, bash around the back yard or hang at the local track, nothing compares to MRC's new Super Brain 989. Its powerful 10 amp charge and discharge capability is just the beginning. It can be used as a 1-30 VAC 10 amp supply to drive a comm lathe, power a tire truer, run a 12-volt soldering iron and handle a load of other tools and accessories. The 989 also features motor break-in and conditioning functions, the ability

to store up to 24-battery profiles and a battery temperature sensing and control capability. The Super Brain 989... today's cutting-edge charger no driver should be without.
