

REFLEX[®] XTR

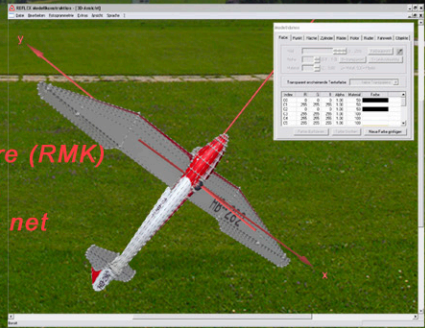

Competition Pilots Worldwide Agree...
 Patented... Performance Leading...
 Pure Flight Simulator -
THAT JUST CAN'T BE COPIED!

Only Reflex XTR offers professional level flight simulation, intuitive model and scenery construction in one complete product.
 For years, the PANOlusion Engine[®] has continually redefined the limits in R/C flight simulation.

NEW VERSION 6.04
 with "SLIMSTICK" USB interface
 Actual Reflex XTR screen photos & models shown

- Scenery created from **real photos**
- Indoor gym, AMA field at Muncie, real fields from around the world
- Unmatched level of detail
- 80MB bitmap data per scenery
- Most advanced panoramic picture technology
- Real area profiles like runway, obstacles, security areas...
- Collision detection on pixel level
- Material properties like grass, bushes, concrete, meadows...
- Light definitions like direct light, indirect light, fog...
- Shadow modification in sharpness & density
- Moderate hardware requirements
- unmatched model quality in a real environment
- Highly detailed models (**50 planes, 27 helicopters**)
- Jets, helicopters, fixed wing
- Glider's, indoors, your own models
- superior flight characteristics
- Very realistic starts & landings
- Hover training for helicopters
- Torque trainer for 3D aircraft
- Flight recorder
- Improved Model construction software (RMK)
- Scenery Construction software (RSK)
- Download models & scenery from the net

Requirements: Reflex XTR Ver. 5.04.0
 iVol or your own transmitter with new "Slimstick" USB interface
 Windows[®] 98, SE, ME, 2000, XP, Vista
 iMacs using Bootstrap
 Pentium[®] 4, 1200MHz or comparable AMD
 256MB RAM, AGP 2X or PCI Express
 hardware accelerated video with 32MB
 minimum, DirectX 8.1 or above
 1GB free hard disk space, CDROM or
 DVD drive, USB port 1.1 or 2.0
