

Auto Reverse Module AD520

Rating: 5.0 Amperes

The MRC DCC Auto Reverse Module will automate the operation of your DCC reverse section with simple 4-wire hookup.

Wiring - Connect the two yellow wires to the reverse loop section and the two red wires to the main line section as shown:

Operation – When a DCC decoder equipped locomotive passes through the insulated gaps leading into or out from a reverse loop section, the MRC DCC Auto Reverse Module will automatically match the track's polarity and maintain the same travel direction for the locomotive.

Note: This unit was not primarily designed for use with standard locomotives and will cause a non-decoder equipped locomotive to travel in reverse after passing an insulated gap. When this happens, simply change the direction of the locomotive by using the DCC command station.

Service and Limited Warranty - Our Auto Reverse Module carries a six (6) month warranty against factory defects. This warranty **does not** include abuse, misuse, neglect, improper installation, unintended use, or any modifications made to the product. If it should become necessary to

return the Auto Reverse Module for warranty repair/replacement, be sure to contact MRC technical support *beforehand* to ensure you receive the correct fees for service. This also gives us the opportunity to troubleshoot issues which may be solved with technical phone support.

The six-month warranty does not include return shipping for customers outside of the continental United States (including Hawaii, Alaska, Canada, and Mexico). Customers outside of the continental United States must contact us for return shipping rates.

Questions regarding the six-month warranty policy or troubleshooting issues can be directed to MRC Customer Support by calling 1-732-225-6360 from Monday to Friday between 8:00am and 5:00pm EST or by emailing us at mrccsupport@modelrectifier.com.

In order to receive warranty service, we require a copy of the original sales receipt to validate the warranty period. Include a note briefly describing the issues along with your name, address, phone number, and email address.

Our return mailing address is:
