

MRC Prodigy Advance DCC Extension Box

Installation

Mount the extension box at the edge of your layout. To avoid damaging the box, please do not over tight the screw. Use the included cable to connect the extension box to your Prodigy Advance Console. Plug your DCC handheld into the extension box. You are ready to run your DCC system from the extension box. Don't use it for early Prodigy DCC.

Service

If it should ever become necessary to return Extension Box, please include a clearly printed letter with the your name, your address and daytime telephone number, along with a detailed description of the problem you are experiencing.

Send the unit to: Model Rectifier Corporation
